SPRING

Proprietors

1945

WHEATRIDGE,  
COLORADO

In this list you will find many attractive offerings. At the reasonable prices named herein, we dig and deliver our stock. Cost of planting is extra. We add one-third for labor and guarantee, though there may be exceptions to this rule.

Should a plant fail to leaf out and start normal growth after proper care, we furnish replacement at half price if the customer does the planting, and at cost of labor if we do the planting. For this guarantee to be effective the customer must notify us of any claim prior to September 1, following the time of planting. Also, we must have received payment according to agreement.

Our nursery has been inspected and approved by the proper state authorities and declared free of injurious insects and diseases.

Let us help solve your planting problems. No charge is made for this service.

Under present conditions these prices are subject to change without notice.

Should stress of the times render it impossible for us to fill an order or do a planting before December 1, 1945, we agree to refund any deposit made by the customer with the understanding that we may thereby relieve ourselves of all obligation.

Numbers in parentheses "( )" indicate height at maturity.

## HARDY CHRYSANTHEMUMS

For a blaze of color from late summer until November, plant the newer varieties of CHRYSANTHEMUM. The CUSHION MUMS begin to bloom in July followed by the large flowering mums in September and October.

We invite you to visit our gardens during September and October when we have thousands of plants, many of the newest varieties in bloom. You may buy clumps of these to set in your own garden to finish blooming there. They will grow and bloom again the next year. In the spring we sell divisions which will make large blooming clumps by fall.

Prices: Blooming Clumps—50c, 75c and \$1.00.

Spring Divisions—25c, 35c and 50c.

Ask for our special CHRYSANTHEMUM LIST which describes over 100 varieties including some of the new large-flowered English varieties.

## HARDY PERRENIALS
